

Solar FlexRack Clips are the small details that make your solar array framework sound. Custom-designed and approved for Trina Solar's DUOMAX Series Dual Glass Module, Solar FlexRack is the expert in solar panel clip design with over 40 million clips sold in North America. The Solar FlexRack clip is produced in an industry-leading, ISO 9001 approved manufacturing facility. The production process is highly-automated for consistent precision, superior quality and economically-efficient production.

## Solar FlexRack Solar Module Clips

- Available for both 60-cell and 72-cell dual glass module
- Sold separately or with Solar FlexRack systems
- All hardware pre-assembled on the clip with no need to handle nuts and bolts in the field
- EPDM insert pre-assembled on the clip to protect the glass module (other insulator materials available)
- Two-piece aluminum clip
- More than 40 million frameless clips sold
- Certified by Trina Solar

### About Solar FlexRack

Solar FlexRack, a division of Northern States Metals, is an integrated solar company that offers custom-designed, fixed tilt ground mount and single-axis tracking systems in the commercial and utility scale, solar mounting industry. Solar FlexRack also offers full turnkey packages, including engineering, geotechnical, pullout testing, field, layout, and installation services to address the actual site conditions of an installation, providing a full scope of services from design to delivery and installation. Solar FlexRack has completed more than 1 GW of solar racking installations in 32 states across America and five countries globally. More information on Solar FlexRack can be found at [www.solarflexrack.com](http://www.solarflexrack.com)

Trina Solar's DUOMAX, is a UL/IEC certified frameless module that needs no grounding. DUOMAX provides UL Fire Class A safety and reduces micro-cracking, PID, module warping, UV aging, and corrosion from sand, acid, alkali, and salt mist.
